## Our Role in Supplying Your Energy

As an Energy Retailer we sell you the energy that is delivered to your Supply Address through a distribution network, and we are responsible for billing you for your energy use. Your distributor delivers the electricity and gas to your property, through the 'pipes, poles, and wires' outside your property. In some instances, this may be the same company.

As your energy retailer, we will use our best endeavours to work with your distributor to arrange for the delivery of energy to your property and to help resolve any quality or continuity of delivery issues that may occur.

Your energy Distributor(s) is responsible for:

- The operation of the energy distribution network;
- Connecting and delivering energy to your property;
- Any faults and emergencies (we will include their phone number on each bill);
- Maintenance of poles, pipes, meters, wires and any other equipment required for delivering energy to your property, up to the point of your meter.

The nature of energy means that the continuity and quality of supply can be affected by a number of factors beyond our control as a retailer. Your energy supply can be affected by weather, accidents, and the various requirements of generators, distributors, and regulatory authorities.

## Your Distributor and Energy Supply

We are an energy retailer with little or no influence over the physical supply of energy. When we say we'll supply you with energy or link your Supply Address, we mean we'll make arrangements for your Distributor to do so. Your Distributor is in charge of the physical delivery of energy (including the quality and dependability of the energy supplied) as well as the connection of your delivery Address.

This means that:

- We are not responsible for your energy supply's safety, quality, continuity, reliability, or pressure; and
- We make no assurances or statements to you about these items other than those set forth in this Agreement, to the extent authorized by law.

Where applicable, we may define time periods during which energy may be supplied for the unit or device on the controlled load circuit for customers on a controlled load tariff. The time periods we determine may differ from the time periods set by your Distributor. However, your Distributor is still responsible for the physical supply of energy to your Supply Address, and the terms of your Supply Address's connection remain in effect.

A lot of factors influence the quality, continuity, reliability, and pressure of your energy supply. These include accidents, emergencies, weather conditions, vandalism, system demand, distribution system technical limitations, and the actions of others (such as your Distributor). As a result, your energy supply could be disrupted, disconnected, diminished, or limited. Some examples of when this may occur include:

- if required by your Distributor or another person;
- if required by us, your Meter Service Provider, Distributor or another person in order to install, maintain, repair or replace a meter;
- in an emergency or for safety reasons;
- due to a failure in the equipment used to supply your energy;
- for inspections, maintenance, or testing;
- at the direction or request of a regulatory body; or
- if there is not enough energy available to supply to you.

If this occurs, we will strive to keep you informed and will adhere to any notification requirements outlined in the Regulatory Requirements. You must comply with any reasonable requests made by your Distributor and permit your Distributor to enforce its rights under the Regulatory Requirements.

## Agreement with CovaU

### Agreements

Your Agreement that you have with us is determined by whether you have entered into a standard (nonmarket) or retail market offer agreement with us.

An agreement is between you (a residential customer or business customer) and us (CovaU ABN 54 090 117 730) for the retail supply of energy (electricity, natural gas or both) to your Premises. We agree to sell to you, and supply to your Premises, energy and perform other obligations as set out our terms and conditions. In return, you agree to pay the amounts billed by us in your energy bill and to perform your other obligations as set out in your legally binding agreement between you and us.

CovaU offers electricity and gas services to residential and business customers. We have set out the types and summaries of the available agreements as follows:

#### Standard (non-market) Agreement

Regulatory requirements in each state require us to offer or sell energy under a Standard (non-market) Agreement. A standard agreement will be based on the Standing Offer tariffs applicable to your Premises and the Standard terms and condition that we publish in our web site.

If you have entered into a standard agreement with us, your agreement is subject to our published standard pricing and terms and conditions both of which are available on website [www.covau.com.au](http://www.covau.com.au).

You will be also deemed to be taking electricity and/or gas from us under the "New Occupant Supply Arrangement" (based on our applicable Standard Offer tariff and our Standard terms and conditions) if you move into a property where we were the energy retailer immediately before you moved in and you haven't entered into an agreement with us or another retailer, your energy consumption will be governed by the "New Occupant Supply Arrangement" until such time that you enter into an agreement with us or another retailer.

#### Market Retail Agreement

You have entered into a Market Retail Agreement with us (unless your agreement is Standard Agreement) if you have accepted our CovaU Energy offer to enter into a Market Retail Agreement.

The terms, conditions, charges and period of your Market Retail Agreement will be as set out in that Market Retail Agreement, it will include your schedule and details relating to the specific plan you accepted.

#### Agreement Term

Before accepting an offer you should nominate the term of the agreement. You can choose if you would prefer a Fixed Term contract or a No Fixed Term Contract. This will be specified on your contract and pricing schedule. If you have selected a Fixed Term contract, then the term of the contract is for the duration of the fixed term unless terminated earlier in accordance with the terms and conditions.

#### Commencement of Agreement

If you are not an existing customer of CovaU, this agreement commences on the date you accept the terms of our offer either in writing or orally, once you have satisfied any relevant preconditions.

Our obligation to supply and sell you energy and your obligation to pay for the energy consumed at your Premises is not binding until the supply start date, which is at the point your unique National Meter Identifier (NMI) and or your unique Delivery Point Identifier (DPI)/Meter Installation reference number (MIRN) number/s have been successfully transferred to CovaU. We consider that the agreement has commenced if your Premises have a Standard Agreement with us unless you entered into our Market Retail Agreement or cancelled your Standard Agreement by giving notice to us.

If you are an existing customer of CovaU, this agreement commences on the date specified in your contract and your pricing schedule.

- (ii). subject to clause 14.3 of this contract, you stop purchasing energy at the relevant premises under this contract.

(b) If you do not give us any reasonable instructions, we will credit the amount of the security deposit, together with any accrued interest, to your next bill.

### **Transfer / Move In Process**

If we are not currently your energy retailer for your Supply Address, we will arrange for the transfer from your current retailer of your Supply Address to us. You consent to us taking all necessary procedures.

We reserve the right to stop the transfer and cancel this Agreement before it is completed, if:

- the transfer does not take place within three months of the Acceptance Date.
- you don't meet our credit standards.
- there's any inaccurate information in the Details section; or
- for any other purpose, as long as it is not unreasonable.

If this occurs, we will notify you and may offer you an alternate arrangement.

If you live in Victoria, we may cancel your Energy Plan (but not this Agreement) if the transfer does not take place within six months of the Acceptance Date. We will notify you if this happens.

### **Cooling off period**

Your Agreement is subject to 10 Business Day cooling off period with us. You can cancel your Agreement during the cooling off period at no cost to you; you must notify us within 10 Business Days of receiving your contract which includes a copy of the Agreement Terms and Conditions. You may call us to cancel your Agreement on 1300 689 866. You may also use the cancellation notice provided with the Agreement Terms and Conditions.

### **Cancellation of Agreement**

To cancel your Market Retail Agreement you must provide advance notice. If you wish to cancel a fixed term Agreement after the cooling has expired, but prior to the end of the Agreement term, exit fees may apply; please check your contract agreement for relevant fees.

You may cancel your Standard Agreement (without penalty) at any time by providing us with 3 business days' notice.

### **Termination of Agreement**

CovaU could disconnect your energy supply if you have not paid your bill by the specified due date and have not made alternative arrangements, such as a payment extension or instalment plan.

All disconnections are subject to rules in the regulatory requirements that are applicable in your state and will only occur after every attempt has been made to contact you to organise alternative arrangements for payment.

If no resolution is found after disconnection of energy our agreement may be terminated.

### **Variations of Agreement**

We may vary our Market Retail Agreement Terms and Conditions at any time in the following circumstances:

- Required by Law

- Provides a benefit to you
- Has no impact on you

If we reasonably believe that the variation will have a minor detrimental impact on you we will provide you with notice as soon as possible and in any event no later than your next bill (unless a longer period is required under energy laws).

If the variation will have a larger detrimental impact on you, you may cancel your Market Retail Agreement without incurring any exit fees. Variations to Standard or Standing Agreements will be made in accordance with the applicable Energy Laws.

## Billing

### How you receive your bills

We will send your bills to your nominated mailing or e-mail address. If we do not have a valid e-mail or mailing address for you, we will mail your bills to your Premises and you will be deemed to have received them. You may need to pay a fee for us to mail bills.

If you have a Standing Agreement, you can opt to have your bill posted to you at no charge.

### Billing information

Subject to your offer or any other billing arrangements we have with you, your bills will be issued at least every three months or at least every two months for Victorian gas customers. If your Premises have a Smart Meter, we may provide bills to you monthly. If we change the bill frequency, we will give you a notice in advance.

Residential customers can opt to be on a smoothpay arrangement which allows you to make more frequent smaller payments over the year to reduce the impact of quarterly bills on household or business budgets. Similar to Interim Invoicing, we will estimate your annual energy costs and divide the estimated total by the amount of instalments you would like to make, you can then nominate your preferred payment frequency and dates along with your nominated financial institution and we will deduct the estimated amount on your nominated date. These amounts are held in credit on your account and applied to the first available invoice after your meters have been read. Any remaining balances must be paid by the due date shown on the invoice and will be automatically debited from your nominated financial institution where direct debit or credit card payments options have been selected.

Unless you have requested that we do otherwise, actual invoices will generally be based on your actual meter reading, but in some circumstances (including where you do not provide safe and easy access to your meter) may be based on an estimated or substituted reading in accordance with Regulations.

You must pay the amount specified on your bill by each due date as indicated.

- The due date will be at least 13 Business Days from the date of the bill
- You can pay your bill using any of the payment methods listed on your bill
- If you have elected to make automatic instalment payments by direct debit or credit card and have completed the relevant authorisation form, then we will deduct the amount owing on each bill from your nominated account or charge your credit card on the due date
- If there are insufficient funds in your account or your credit card is declined, any related fees imposed on us are payable by you and may be included in a later Energy bill. You will not be eligible to avail the Pay on Time discount in such a situation

### Reviewing Your Account

If you disagree with your bill, you can request a review. We will review your bill

in accordance with our complaints and dispute resolution procedures and we will inform you of the outcome of the review as soon as reasonably possible.

During the time we are reviewing your bill, you must pay, in addition to any other bills that are properly due, the lower of:

- That portion of your bill that is not under review
- An amount equal to the average amount of your bills in the previous 12 months, excluding the bill in dispute
- Any other bills that are probably due

If we are reviewing your bill and you request that your meter or meter readings be checked, you must pay the special meter reading in advance (if the meter, or meter data proves to be faulty or incorrect we will refund you the special meter reading fee).

After reviewing your bill, if we are satisfied that your account is:

- Correct - you must pay the unpaid amount of that bill or ask us to arrange a special meter reading
- Incorrect - we will adjust your bill for any differences and refund any special meter read fees paid.

You may lodge a dispute with the Ombudsman after completion of our review if you are not satisfied with the decision of the review.

### **Historical Billing Information**

At your request, we will provide you with your billing data for the previous two years if the data is available. This data will be sent to you as soon as possible, free of charge.

If you request billing data that is more than two years old, we will do our best to provide this if the data is available. We may impose a reasonable charge for providing the data.

### **Undercharging and Overcharging**

In the event that we undercharge you, we are entitled to recover the amount undercharged. If the undercharge was caused by something we or your distributor did, or failed to do, we will limit recovery to the amount undercharged in the previous 9 months (4 months in VIC for most circumstances). We will explain the reason for the undercharge to you and identify the amount in your next bill, or a special bill. Sometimes, restrictions on recovery do not apply. For instance, if we have undercharged you because of something you (or an occupier of your Premises) have done or failed to do, if a fraudulent act has taken place, or energy has not been consumed in accordance with legislation.

If we become aware that you have been overcharged, we will inform you within 10 business days. If you have already paid that amount we will repay that amount as you reasonably direct us to, otherwise we will credit your next bill. If the amount is less than the overcharge threshold which is currently \$50, we will credit your next bill. If you are no longer a customer, we will do our best to repay the amount to you within 10 business days.

If the overcharging was not due to something we or your distributor did, or failed to do, we will only credit or pay you the amount you were overcharged in the 12 months before the error was discovered.

## **Discounts, Concessions Rebates**

### **Pay on Time Discount**

You may be eligible for a Pay on Time Discount, the amount of the applicable discount will be shown on your actual bill, along with the date that the bill must be paid in full by, in order for the discount to be applied.

Customers on Interim Invoicing must pay all Interim Invoice by the due date to remain eligible for their Pay on Time Discount which will be applied to their

actual invoices only.

We will apply the Pay on Time Discount to the total dollar value of the usage component of the bill; however, we may deduct some concessions from your usage before discounts are applied. Depending on the plan and terms of your Market Retail Agreement, the discount may also apply to the daily supply charges. If you do not pay your account by the date specified on the bill, the Pay on Time Discount may not be applied. We may also reduce the Pay on Time Discount if you do not pay all your smoothpay instalment payments.

### **Guaranteed Discount**

You may be eligible for a Guaranteed Discount which is a percentage discount applied to the usage charges will be shown on your actual bill. Depending on the plan and terms of your Market Retail Agreement, the discount may also apply to the daily supply charges.

### **Direct Debit Discount**

If you are a Victorian Residential customer you may be entitled to a further discount if you have signed up for a market retail contract and have set up Direct Debit or Credit Card as an automatic payment method.

Direct Debit Discount is a percentage discount applied to the Usage charges only for each invoice where valid direct debit or credit card payments have been provided as an automatic payment method for eligible customers only.

Note: Additional merchant fees apply to credit card payments. For details about the charges, please visit [www.covau.com.au/additionalfees](http://www.covau.com.au/additionalfees).

### **Concessions & Government Sponsored Rebates**

You may be eligible to receive a Government energy concession or rebate. If you are a Residential Customer, we will provide you with detailed information on Concessions free of charge, upon request by you or where we are required to do so under any regulatory requirements.

The information on these concessions or rebates can be found at our website at [www.covau.com.au/concessions](http://www.covau.com.au/concessions). We will automatically apply to your account any Concessions that you are eligible for, provided you have supplied us with the appropriate details of your eligibility for the Concession and you have agreed to share that information with the relevant State or Federal government agency.

### **Sign-Up Rebates**

You may be eligible to receive a Sign-Up rebate, these rebates are offered by CovaU to eligible parties during the sign up process. If you are eligible for this rebate it will be applied to your first Actual Invoice that contains Usage charges. A Sign Up rebate is once off credit that is applied to eligible customers at the discretion of CovaU. If you decide to cancel your account with CovaU prior to your first invoice you will no longer be eligible for a Sign Up rebate.

Sign up rebates are not refundable or transferrable.

## **Pricing, Rates and Tariffs**

The rates under your Market Retail Agreement are based on your meter type and are set out in the CovaU Energy Offer.

The rates under your Standard Agreement are based on the average maximum rate determined by the government agency and set by the energy regulators and your retailer.

### **Tariff/Rates**

Your rate (or tariff) is the price you pay for your energy supply and is set out in either your CovaU Energy Offer Summary (for a Market Retail Agreement) or our Standard offer (for a Standard Agreement). You are responsible for the consumption of energy at your supply address and for all associated fees and charges, including any additional retail charges (e.g. for special meter readings), distributor charges and for any other goods or services supplied to

you. These charges are detailed on our website.

CovaU will normally initiate a special meter read if your next scheduled meter read falls more than 30 days after sign up as part of the process to switch your services to CovaU. If a special meter read is required any associated fees and charges are payable by you.

### **Changes of Prices, Rates and Tariffs**

Our prices, rates and tariffs are subject to changes permitted under the Market Retail Agreement.

We reserve the right to change your Market Retail Offer rates from time to time and we will provide you with an advance notice of any changes to our prices, rates and tariffs, which will include a future date on which the change will take effect, where required by Energy Laws.

Our Standard Offer rates may be varied once every 6 months and we will publish our standard prices on our website.

## **Payment Options**

### **Flexible payment instalments to help you budget**

Pay us a set monthly amount so you are always paying towards your energy consumption with no nasty surprises when your bill arrives. If you have a Retail Market Agreement with us you agree to pay regular instalment payments as a contribution to your bill.

Based on the information you provide us, we will calculate your estimated annual energy costs. These costs are then simple divided by the number of predicted instalment payments. This estimation will be regularly reviewed and adjusted accordingly; we will inform you of any necessary adjustments.

Payments can be made via direct debit, or credit card. Please note that we will bill you separately for electricity and gas.

Your credit card or nominated bank account will be debited according to the guidelines on the direct debit authorisation form on the date specified by you. Your bill will be generated after your meter has been read and will show the total amount of energy used, and the associated costs of your tariff, less any payments already received by direct debit, or credit card through smoothpay or interim invoicing arrangements.

If there is an outstanding balance, you are required to pay it in full by the due date shown on the bill less any discounts that you are eligible for. Where automatic payments through Direct Debit or Credit Card have been set up, any balances owing on an invoice will be automatically debited from the nominated financial institution on the invoice due date.

Please note we do not pay any interest on instalment payments or credit balances.

### **Payment Methods**

- Credit Card
- Direct Debit
- Bpay
- Cheque
- Post Billpay

Payment defaults may attract an additional charge which will appear on your bill.

### **True Up**

If we agree with your regular instalment payments, these instalments will be calculated based on an estimation of your energy usage. They will also be reviewed regularly to ensure they remain in line with your ongoing energy charges. You will be given 30 days' notice of any changes to your instalment payment. You may object to a proposed change in your instalment amount if the proposed change varies by 20% or more than your current agreement. You must notify us within the 30 days' notice period of your objection or the proposed change will become effective.

If you are on a Standard Agreement you can object to any proposed change of your instalment amount, you must inform us within the 30 days' notice period of your objection or the proposed change will become effective

## Your Responsibilities

### Access to the meter

You must provide safe, convenient and unhindered access to your property and meter so that your meter can be read and for connection, disconnection and reconnection. You agree to pay the reasonable costs we incur as a result of your failure to allow such access as well as for any site modifications (if required).

You must inform us of any changes affecting access to the meter as soon as practicable.

### Estimated Reading

If safe and easy access to the meter(s) on your Premises is not obtained or in certain other circumstances an estimated reading will be made, based on previous usage patterns, in accordance with the regulatory requirements and your agreement. If your bill is based on an estimate of your usage and we later have a measurement of your actual usage, we will adjust a subsequent bill for the difference between the estimate and your actual usage. However, if your bill is based on an estimate because you fail to give us access to your meter. In this case we may charge you an additional fee if you ask for a bill based on your actual usage.

### Updating Your Contact Information

It is your responsibility to ensure that your contact information is kept up to date. We will, where permitted by Regulation, send a notice, consent document or other communication to you by e-mail.

### Moving or vacating the Premises

If you are moving or vacating the Premises you must give us a minimum 3 Business Days' notice prior to the day you are planning to leave. We will need safe access to the meter/s to complete a final read.

You must also provide a forwarding address for your final bill under this Agreement. In the event that you provide no prior notification to us, you remain responsible for all energy consumed at the Premises until such a time that:

1. you notify us that you no longer reside at the Premises;
  2. A new occupant assumes responsibility by arranging a supply contract;
  3. Another retailer becomes financially responsible for the site
- **Moving in** – energy already connected, simply let us know at least 3 business day prior to the day you are moving in and we will arrange for an initial meter read to occur and any reconnections of supply that may be necessary. Connections are not done on a weekend, or public holiday. We will let you know of any applicable connection fees or any further information that we may need from you when you contact us.
  - **Moving in** – energy not connected, if your new supply address is not already connected to the distribution network we will work with your distributor to determine the availability of supply and to organise a new connection to your address. This can take some time to organise so please call us on 1300 689 866 as early as possible to organise this.
  - **Moving out disconnections** – final readings and disconnections are not done on a Friday before a public holiday, weekends or public holidays. You will also need to provide us with a forwarding address for your final invoice.

If you don't tell us that you're moving or you don't provide access to your meter, you'll need to pay us the charges and any other amounts payable under this agreement for the supply address until:

- we find out that you've moved and your meter has been read;
- you tell us you're moving and your meter is read;
- the energy supply is disconnected or transferred to another retailer; or
- the date you or someone else becomes responsible for the energy supply at the Supply Address under a new agreement with us.

## Credit Management

### Credit Check/Verification of Identity

In accepting our offer, you authorise us to carry out a credit check on you to establish your credit worthiness and to use your identification details to verify your identity. If we conduct a credit check and the results are not satisfactory to us, we may end this Agreement immediately by notifying you within the Cooling-Off Period. Alternatively, in the 14-day period immediately after the Cooling-Off period, we may give you a notice amending the terms of this Agreement by replacing the tariffs, charges, and benefits specified in your CovaU Energy Offer with the Standing Offer prices.

### Credit Management Policy

Our credit management policies adhere to the applicable energy regulations. Please see our website for more details. [www.covau.com.au](http://www.covau.com.au)

### Payment Difficulties

If you are experiencing difficulty in paying your bill, you should contact us as soon as possible.

If you are a residential or business customer, there are a range of services we can discuss with you depending on your circumstances.

These may include:

- An instalment plan that gives you more time to pay your bills
- Having your bill redirected to a third person who has agreed in writing to the redirection
- Information on independent financial and other relevant counselling services
- Information regarding government concessions rebates or grants that may be available to assist with financial hardship
- Arrangements for advance payment towards future bills

### Financial Hardship

We define financial hardship as a situation where a customer is unable reasonably, because of illness, unemployment or other reasonable causes, to discharge those obligations of payment. Financial hardship can be of limited or long term duration.

CovaU considers financial hardship a state that involves an inability of the customer to pay bills, rather than an unwillingness to do so. Customer hardship can come about from a variety of situations and can result from a number of factors including:

- Loss of employment by the consumer or family member
- Family breakdown
- Illness including physical incapacity, hospitalization, or mental illness of the consumer or family member
- A death in the family
- Abuse of service by a third party leaving the consumer unable to pay the account
- Natural disaster

A Customer who is experiencing financial hardship will not have his or her electricity and gas supply disconnected, and will not face recovery action as long as the customer makes payments according to the terms of an agreed repayment plan with CovaU.

For more details of a financial arrangement see our Financial Hardship policy on our website.

- The affected party must give the other party prompt notice of the force majeure event, an estimate of its likely duration, the obligations affected by it and the extent of its effect on those obligations and the steps taken to remove, overcome or minimise its effects

# Market Retail Contract Terms and Conditions

## PREAMBLE

This agreement is a market retail agreement. It is about the sale of energy to you at your Premises. This Agreement is made up of these Agreement Terms and Conditions, the Energy Benefits Details , your CovaU Sales Agreement and any other terms and conditions provided (if applicable) (collectively referred to as “this **Agreement**”).

In addition to this Agreement, the energy laws and other consumer laws also contain rules about the sale of energy to small customers and we will comply with these rules in our dealings with you. For example, the National Energy Retail Law and the National Energy Retail Rules (“the **Rules**”) set out specific rights and obligations about energy marketing, payment methods and arrangements for customers experiencing payment difficulties.

You also have a separate Agreement with your distributor, called a customer connection Agreement. The customer connection Agreement deals with the supply of energy to your Premises and can be found on your distributor’s website. The standards of your supply of energy including reliability and interruptions are managed by your distributor.

More information about this Agreement and other matters are available on our website at [www.covau.com.au](http://www.covau.com.au).

(d) A reference to a “clause” or “paragraph” in these Agreement Terms and Conditions means a clause or paragraph of these Agreement Terms and Conditions.
